

TrunQY

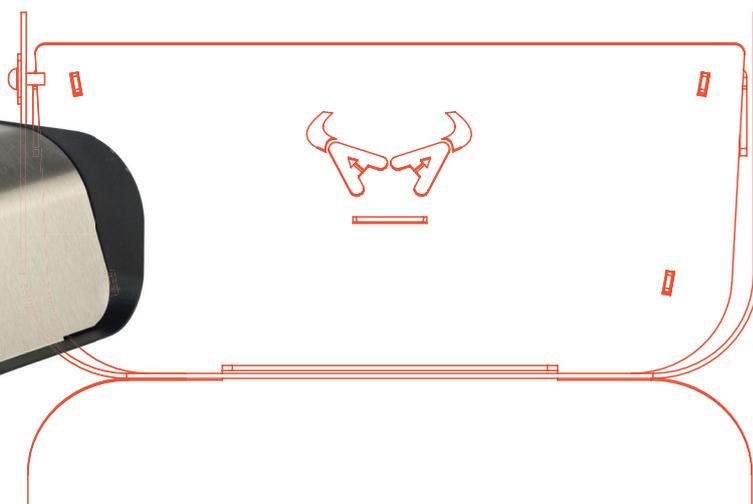

PORTABLE Hybrid Grill

TrunQY was developed for those of us who want to take TrunQ to the next level. With only two adaptations, this hybrid BBQ becomes a portable tabletop BBQ that can also run on gas, while retaining the simple award winning design and multi-functionality of its big brother.

The base doubles as a lid, making it easy to store or to take along, at home or on the road. Also, for added convenience, all of its components, including a grill with skewer holder, are dishwasher safe. So, whether you are camping, lazing in the park or unwinding on your apartment balcony after a long day at work, TrunQY turns barbecuing and outdoor socializing into child's play.

SPECIFICATIONS

- Design Grill
- Brushed Stainless Steel
- Easy Storage
- Grill with skewer holder
- Highly portable
- Table grill
- Hybrid fuel: Gas or charcoal
